Glassdoor

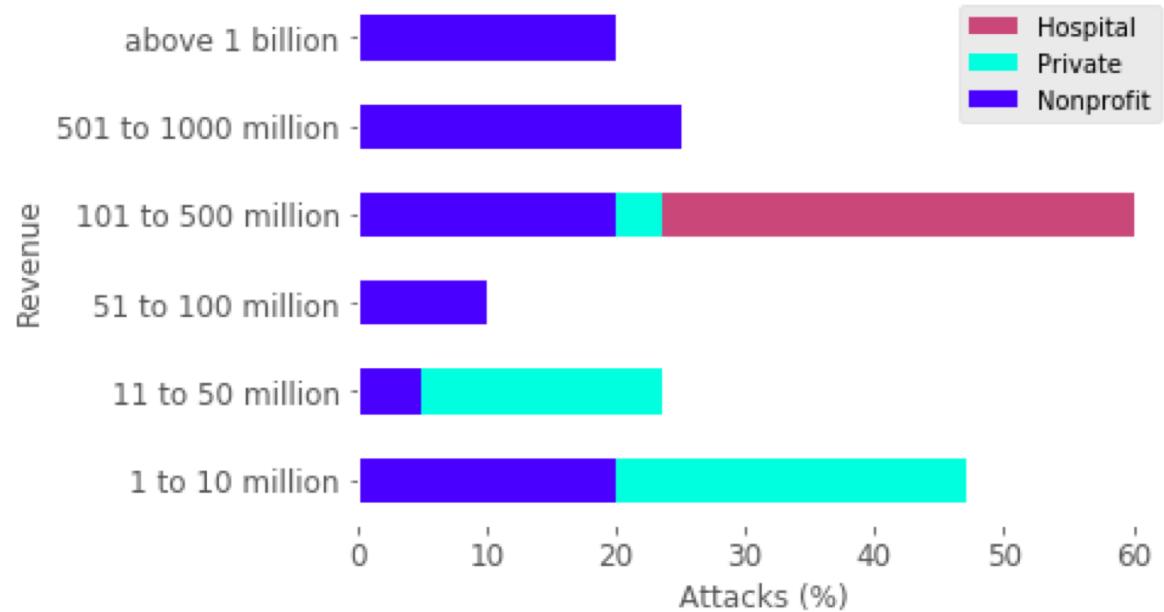

- ❖ identified companies/organizations from hackmageddon dataset
- ❖ scraped www.glassdoor.com to collect information on:
 - ❖ Company name
 - ❖ Category
 - ❖ Revenue
 - ❖ Employees

company	industry	revenue	employees	name	min_USD	max_USD	min
Private	Unknown	1 - 5	1 to 50	Metropolitan Urological Specialists	million	million	1
Nonprofit Organization	Unknown	5 - 10	51 to 200	Family Service	million	million	5
Nonprofit Organization	Health Care Services & Hospitals	500-1	5001 to 10000	Lexington Medical Center	billion	billion	500
Private	Health Care Services & Hospitals	25 - 50	501 to 1000	Citizens Memorial Healthcare	million	million	25
Government	Insurance Carriers	5 - 10	10000+	NHS	million	million	5
Nonprofit Organization	Health Care Services & Hospitals	NaN	5001 to 10000	Verity Health System	NaN	NaN	NaN
Hospital	Health Care Services & Hospitals	100 - 500	1001 to 5000	Campbell County Memorial Hospital	million	million	100
Nonprofit Organization	Health Care Services & Hospitals	2 - 5	10000+	Sentara Healthcare	billion	billion	2
College / University	Colleges & Universities	10 - 25	51 to 200	University of Maryland School of Medicine	million	million	10
Government	Health Care Services & Hospitals	500-1	10000+	Barts Health NHS Trust	billion	billion	500

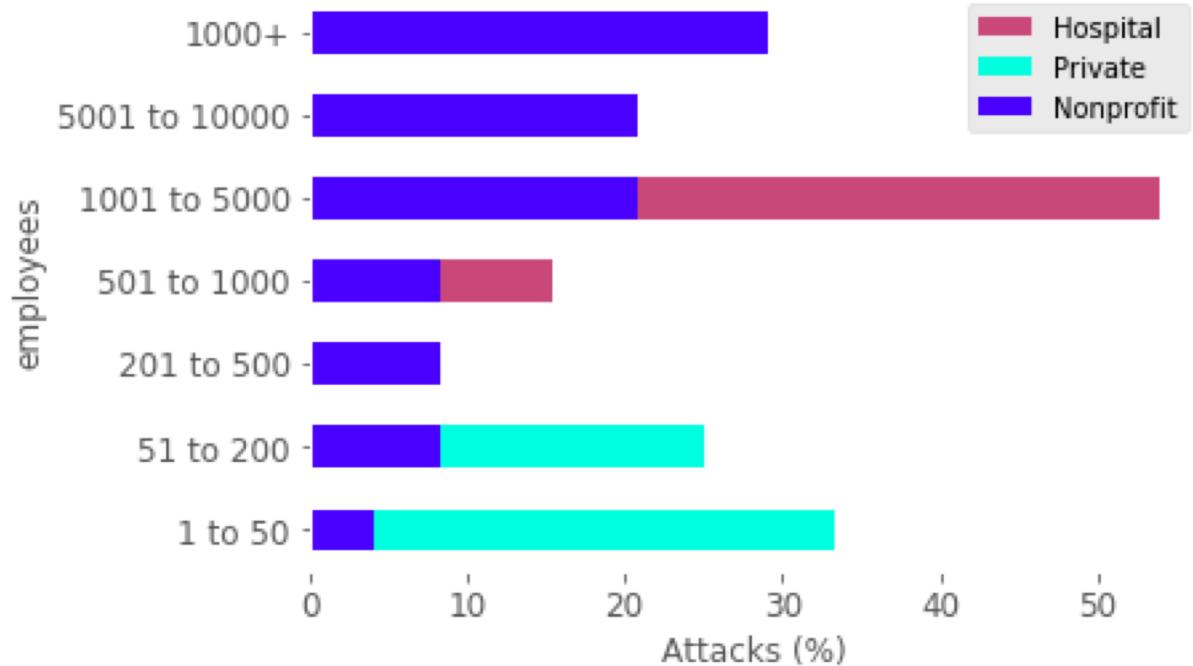

Healthcare: Attacks by employees and revenues

Attacks by revenue

Attacks by employees

Healthcare: WordCloud

Conclusions

Individuals

- ❖ Every individual using the internet is a potential target
 - ❖ App downloads, email accounts
- Tip: avoid free wi-fi and useless apps**

Healthcare

- ❖ Hospitals, small private companies, and large non-profits are main targets
 - ❖ Phishing emails to employees
- Tip: scale up cyber security training for employees**
- ❖ Ransomware is becoming more popular
- Tip: scale up cyber security investment!**
